

# Rage Of The Butterfly (c)Emerald Rose 2014

## Verse

When the science gods are all cast down  
And the priests and the gentry rule  
You can bring them a scholar's warning  
They will call you a heathen fool

## Verse (rising)

And they'll say that it's not a problem  
Or they'll say that we're not to blame  
As they dig up another thousand tons  
And put it to the flame

## Chorus/Refrain

But the wind and the wave are rising  
In the warming carbon sky  
And the giant storms are spun to life  
Hear the winds of chaos cry...  
Feel the rage of the butterfly  
...Sound of thunder  
... From far away  
...Stop and wonder

## Verse

Now the priests say god will save us

**G** **Am**  
Or Death must be God's will  
**Am** **C**  
And the commerce giants pay no heed  
**G** **Am**  
And their treasure chest they fill

### Verse (rising)

**Em** **Am**  
And the armies dance their dances  
**Em** **Am**  
While the children starve and die  
**C** **G**  
But their bullets cannot stop the beast  
**D**  
That rises in the sky

### Chorus/Refrain

#### Verse

**Em**  
From the wings of a tiny insect  
**Am**  
A vortex spins today  
**Em**  
And the winds of chance will grow one seed  
**Am**  
Though a million fade away

#### Verse (rising)

**Em**  
And across the warming ocean  
**Am**  
The widening gyre turns  
**Em**  
And the rough beast speaks with thunder  
**Am**  
As the blood-dimmed tide is turned

### Chorus/Refrain
